

Solving Inequalities Blitz

Draw a graph for each inequality.

1) $x \leq 2$

2) $p \leq 1$

3) $x > 1$

4) $x < 5$

5) $5 < n$

6) $-3 > b$

Write an inequality for each graph.

Solve each inequality and graph its solution.

11) $-4 \leq \frac{x}{15}$

12) $\frac{v}{13} < 13$

13) $-6n \leq 60$

14) $\frac{a}{10} < -20$

15) $10 \geq 7 + \frac{p}{3}$

16) $-8 + \frac{n}{4} \geq -3$
